

EXECUTIVE AMPLIFIER

0690 series hybrid amplifiers are economical hybrid amplifier, having broadband up to 870MHz, maximum gain up to 33dB. It is a good choice for large CATV HFC network.

Different kinds of SMPS are available to operate these kinds of amplifier-

1. SMPS-220V (60 ~ 270) V AC.
2. SMPS- P.PASS (30 ~ 100) V AC.

Different kind of RF IC can be used according to the customer choice.

Feature:

- Low Power Consumption.
- 30 dB ~ 860MHz
- 20dB gain & slope control
- Dual Output with monitor
- Available in transformer & SMPS

EXECUTIVE AMPLIFIER

Specification:

Frequency Range	:	47 ~ 862 MHz
Noise figure	:	<12dB
Return Loss	:	>14dB
C/CTB	:	>56dB
C/CSO	:	>55 dB

Product Series:

1. High Gain 40dB amplifier
2. With SMPS executive Amplifer
